SUBJECT: Departmental Hazardous  
Waste Policy Task Force

At your request because Hugh Archer was ill, I attended an organizational meeting for the above-named task force. The meeting was conducted by Secretary Harscher. Jack Wilson was designated the chairman of this committee whose immediate goal is to develop a plan for the clean-up and reclamation of the Valley of the Drums.

Secretary Harscher provided the task force with some background information. He stated that the Department had met with EPA and had met with the generators involved in the Valley of the Drums. He emphasized the importance of maintaining good working relationships with both of the aforementioned groups in order to achieve a resolution of the problem. Secretary Harscher outlined several concerns and sensitive areas which will have to be addressed by the task force. I am providing Hugh a copy of my notes from the meeting which go into the concerns and goals in more detail.

If you have any questions concerning this meeting, please contact me.
